## VISION

**To be a trusted partner in healthcare by providing innovative and sustainable solutions, guided by ethics and transparency.**

***"From need to solution — we transform healthcare supply into a seamless, value-driven process."***

# About Us

## Efficient Supply for Critical Healthcare Fields

Customed Medical is a healthcare company focused on the supply of medical products used in ophthalmology, anesthesia, intensive care, and emergency services.

For us, product quality and process management are top priorities.

We don't just offer certified and reliable products — we manage a well-planned, precisely timed, and operationally compatible supply process from end to end.

We build systems where products, processes, and services work in harmony, delivering complete and practical solutions tailored to the needs of healthcare institutions.

- Founded in 2023, headquartered in Izmir, Turkey
- Active both nationwide and internationally
- A young and dynamic company offering innovative healthcare solutions
- Customer-oriented approach with reliable partnerships

# Areas of Operation
